# Chairmanships For Connecticut Men (

Four will be Named in Congress-Congressman Higgins as Chairman of Committee on Expenditures in Department of Agriculture.

(Special to The Bulletin). Washington, Aug. 5.—For the first time in history Connecticut will hold four chairmanships during the rest of this congress. Mr. Henry, of the First district, will be re-named chairman of the committee on expenditures on public buildings. Mr. Sperry of the Second will continue as chairman of the committee on alcoholic traffic. Mr.

public buildings. Mr. Sperry of the Second will continue as chairman of the committee on alcoholic traffic. Mr. Higgins will be appointed chairman of the committee on expenditures in the department of agriculture, the duties of which position he performed during the last session as acting chairman. Mr. Hill will be named as chairman of the committee on Expenditures in the treasury department.

It is expected that the members will be reappointed to the other committee in positions they held in the last congress, except that Mr. Higgins will retire from the committee on territories. Mr. Hill has already been named a number of the ways and means committee. Mr. Henry will quite likely be placed upon the committee of patents, and merchant marine and fisheries. Mr. Sperry will continue a member of the committee on postoffices and postroads where he has served since he was a member of congress.

In addition to the chairmanship of the expenditure committee on the judiciary and war claims.

The only uncertainly in the delegation is the case of Major Tilson, the

FUNERALS.

The funeral of Capt. Christopher G. Newbury. The funeral of Capt. Christopher G. Newbury, who died suddenly at his residence at Groton on Monday was held Thursday afternoon at 2 p. m. The services were conducted by Rev. C. S. M. Stewart, rector of Bishop Seabury Memorial chapel, and were attended by a large number of relatives and friends. Many beautiful floral tokens were sent by sorrowing friends. The bearers were members of Jibhoom club No. 1, of New London, of which the deceased was an esteemed member, and were Capt. Joseph Luther, Capt William H. Aven. Dr. J. N. Dimon and Capt. J. E. Aven. Burial was in Groton cemetery.

Thomas F. Haniey. Capt. Christopher G. Newbury.

Dr. J. N. Dimon and Capt. J. E. Avery.

Burial was in Groton cemetery.

Thomas F. Hanley.

The funeral of Thomas F. Hanley.

But no one is even asked to purchase po lam without first obtaining an experime otal package which will be sent by mail, free of charge, upon regent b trainmen and Edward Ballard, John O'Nell and Thomas Denehoe of the Hibermans. The flower bearers were David H. Seamon and William Rogers.

Mrs. Sarah L. Becker. The funeral of Mrs. Sarah L. Becker was held on Thursday afternoon at I o'clock from the parlors of Church & Allen, attended by relatives and friends, and floral forms covered the casket. Rev. Asher H. Wilcox con-ducted the service. The body was sent on an evening train to Daytona Fia., for burial.

DAVENPORT ARMS CO. ASSIGNS Efforts to Raise Money by Subscrip tion Not a Success-James L. Case Named Trustee.

Acting for the Thames Loan & Trust Co. the law firm of Brown & Perkins has foreclosed on the property of the Davenport Fire Arms company. Will ever be too large for us to build and on Wednesday the compand made an assignment for the benefit of its for the job. Competition is keen and creditors to James L. Case as trustee. The Thames Loan & Trust Co. is trustee for the bondholders, who bought experience has taught us the way to \$190,000 worth of bonds offered to the public in 1907, and secured by a mortgage on the plant.

The assignment is not unexpected, as efforts have been under way for some time, through public meetings

and subscriptions, to raise sufficient money to carry on the business. No enough money was raised to assure the company starting. The assignment saves the company from going through bankruptcy proceedings in the United States court. A hearing will be held on the matter of the petition in a few days in the probate court, when the trustee will probably be confirmed. By all interested it is hoped something may turn up to save the com-pany from going to pleces. It has been a valued industry here, employing over 300 men when running ful but the shop has been closed since early last spring.

The W. H. Davenport Firearms Co.

was incorporated in June, 1891, with a capitan of \$12,000. Under the man-agement of William H. Davenport, identified with the gun business since 1848, it thrived. Since his death, four 1848, it thrived. Since his death, four years ago, the business has not been so prosperous. For more than twenty years Mr. Davenport was ably assisted in the manufacture by his son, Walton C. Davenport, as superintendent. In the growth of the company it was capitalized at \$200,000, but this was later reduced to \$100,000. In 1907 bonds to the amount of \$100,000 were issued and the plant mortgaged to se-Co. being made trustee for the hondholders under the mortgage. There was an agreement to pay off \$10,000 of the bonds each year, but the busi-ness did not succeed well enough to allow any payments being made. The officers of the company are: President and treasurer, Henry H. Gallup; vice president, Gardiner Hall of Willington; secretary and general

manager, Walton C. Davenport. On Being a Progressive City. Yesterday's fire was a practica

warning by way of demonstration what a fire can do among the light

built three-story tenement houses with their garniture of balconies and plaz-zas. The fire department is credited with having been extremely efficient, yet less than an hour was required to consume one of these houses, to wreck two and to damage more or less a doz en or so more. An outbreak of fire in the night, a higher wind or one in a different direction, an unavoidable de-lay in giving an alarm, an accident to some plece of fire apparatus, any one of a thousand contingencies, might easily operate to cause greater disaster where conditions are so well prepared for disaster as they are in many sec-tions of this city. If next time the result is even less fortunate there will result is even less fortunate there will be no occasion for surprise.

New Bedford is talking much about growing to be a great city, but it is going on with methods of building which scarcely ought to be tolerated in a small city. There are prices which have to be paid for municipal growth, and one of them relates to the construction of buildings. This can be paid by highly inflammable construction and occasional disastrous fires or ion and occasional disastrous fires oby better construction with compara tive immunity. Our impression is that though the initial cost of the latter is the greater, it is the cheaper in the end. At any rate, larger progressive cities act on that principle mostly as the result of their own costly experience. New Bedford will have to come to it sooner or later. If it is proposed to keep on building these high wooden houses close together fires like that of vesterday—and worse—are the natural rive immunity. Our impression is that

#### CURES ECZEMA QUICKLY

w Discovery Has Revolutionized the Treatment of Skin Diseases.

Nothing in the history of medicine has ever approached the success of the marvelous skin remedy known as poslam, which, it is safe to say, has cured more cases of eczema and skin diseases than any remedy ever offered for these fills.

The success of poslam is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and cures chronic cases in two weeks. The very worst cases of eczema, as well as acne, herpes, tetter, piles, sait rheum, rash, crusted humors, scaly scalp and every form of itch, yield to it readily. Blemishes such as pimples, red noses, muddy and inflamed skin disappear almost immediately when
